-  **UV Resistant coating**  
Certified ECE 22.05

## SHELL MATERIALS

 **MADE OF HPTT**  
High Pressure Thermo-plastic Technology. In an exclusive process developed by our researchers named HPTT (High Pressure Thermoplastic Technology), a mix of ABS is injected in mould. The Moulds used in this high precision industrial process are sculpted from blocks of metal weighing several hundred kilos.

 **THREE SHELLS**

LS2 has multiple shell sizes that offers the benefit of a fully protective EPS liners and our high quality and performance comfort padding. That is possible thanks to LS2's exclusive 3D laser cut foam for the perfect fit and all day comfort.

## VENTILATION TECHNOLOGY

 **DYNAMIC FLOW THROUGH VENTILATION**

LS2 helmets feature a Dynamic Flow through Ventilation. Fully adjustable intake ports and vented EPS work with the rear spoiler and exhaust ports to create a constant, light flow of air helping to keep the rider cool and comfortable.

-  **TOP AIR INTAKE**
-  **CHIN AIR INTAKE**
-  **EXHAUST PORTS**

## VISOR FEATURES

 **TWIN SHIELD SYSTEM**

A sun shield helps to protect the rider's eyes from bright sun. The sun visor moves up and out of the way quickly with the exclusive fast to flip-up system that is allocated in the lateral of the helmet. This system allows to move the sun visor fast when the rider enter in dark places like tunnels.

 **QUICK RELEASE SYSTEM**  
This system allows the visor to be effortlessly removed and inserted back using no tools other than your hands. It's multiple springs system facilitates opening and closing the visor.

 **PINLOCK READY**  
To increase the ability to resist the fog during ride, LS2 tease to you the Pinlock, a system that avoid the blur caused by natural breathing on the visor without compromise the vision angle of the helmet.

## SAFETY FEATURES

 **QUICK SUN VISOR CONTROL**

Tiny and powerful mechanism to control the flip up/down the sun visor of the helmet quickly and safety when rider enter in dark places or sun shafts.

-  **MULTIDENSITY EPS**
-  **REINFORCED CHIN STRAP**

 **QUICK RELEASE BUCKLE**

The metal buckle attaches to a high quality safety strap. On the other strap is a ribbed plastic tab. Insert the ribbed plastic tab into the metal buckle. You'll hear a light "clicking" sound. Continue to slide it until you get a comfortable snug fit. Pull the ribbon on the lever to release. For additional initial adjustment, use the metal slider buckle on the strap with the ribbed plastic tab to take up excess strap, have a snug fit that won't roll off.

 **COMFORT LINER**  
All LS2 helmets feature a fully removable and washable comfort liner so you can keep it as fresh as new. Our anatomically correct cheek pads are cut using LS2's 3D Laser Technology for a perfect fit

 **HYPOALLERGENIC**  
We use hypoallergenic technical fabrics that wick moisture to help keep you cool while you ride.

 **READY FOR GLASSES**

A feature designed specially for those who wear glasses. Consist in small spare spaces located in the both sides of the helmet between the cheek pads and the EPS structure. you can wear glasses in comfortable way without taking any damage during long trips.

## COMFORT LINER

 **CHIN CURTAIN**  
A high quality fabric insert at the front of the chin bar helps minimize the flow of wind reaching the pilot's face for a more comfortable trips.

LS2 VISORS ARE BUILT WITH 3D OPTICAL CORRECT "A CLASS" POLYMER, A SPACE-AGE POLYMER WITH HIGH RESISTANCE TO IMPACT THAT AVOIDS DISTORTION AND OFFERS MAXIMUM CLARITY. OUR VISORS ARE DURABLE, SCRATCH RESISTANT AND UV RESISTANT. ALL OF THAT COMBINED WITH THE ULTIMATE TECHNOLOGY OF PINLOCK SYSTEM OFFERS THE MOST ADVANCE FEATURES IN FOG RESISTANT.
